SWIM SAFE™

It's as simple as **A, B, C!**

The Swim Safe™ line by Bestway® is more than just swim accessories. We offer products that take a new swimmer through 3 swimming levels (A, B, C) helping them become more confident swimmers at their own pace. Our flotation devices are based on age and weight-appropriate guidelines, so parents are able to witness their child's development as they move from one level to the next!

DISCOVER

Bestway®’s Fortech™ airbeds represent the future of inflatable bed technology. The innovative material provides high levels of strength, durability and comfort unparalleled in the industry.

STRONG MATERIAL

STRETCH RESISTANT

Properties of the Fortech™ material make the airbeds more resistant to stretching caused by regular inflation and repeated use by consumers.

PUNCTURE RESISTANT

Fortech™ material is 75% more puncture resistant and 150 times more impervious to scratches.

INCREASED IGNITION RESISTANCE

Fortech™ material is 20% more fire retardant.

BUILT TO LAST

OVER-INFLATION DAMAGE

Fortech™ beds are 70% more resistant to damage caused by over inflation.

ROLLER TESTING

When tested with continuous rolling 300 lbs., Fortech™ beds lasted 35% longer than standard PVC beds.

INTERNAL AIR LOSS

After extended use during simulation testing, Fortech™ airbeds retain 22% more internal air pressure than PVC beds.

COMFORTABLE & CONVENIENT

LIGHT WEIGHT MATERIAL

Fortech™ beds are up to 15% lighter in weight compared to PVC beds of the same size.

SOFT MATERIAL

The Fortech™ material provides a soft and comfortable sleeping surface comparable to that of flocked PVC.

TEMPERATURE REGULATION

The features of the Fortech™ material ensure that beds do not become too cold or too hot when temperatures fluctuate from hot to cold, as commonly found with PVC beds.

The fusion of high density polyester fabric and durable PVC creates a material that is stronger, yet still lightweight.

ALWAYZAIRE™ TECHNOLOGY

Bestway® is glad to introduce the new ALWAYZAIRE™ Technology, the latest engineering innovation and patented technology in portable sleep solutions.

Rest easy knowing your airbed with ALWAYZAIRE™ Technology will be fully inflated throughout the night. The dual pump system includes a pump to inflate and deflate the bed, internal sensors to detect air pressure & a silent pump that turns on to maintain the preferred comfort setting.

INTERNAL PSI GAUGE & MOTOR

Can detect drops in internal pressure and will automatically start the silent re-inflation pump to get the bed back to its intended firmness setting.

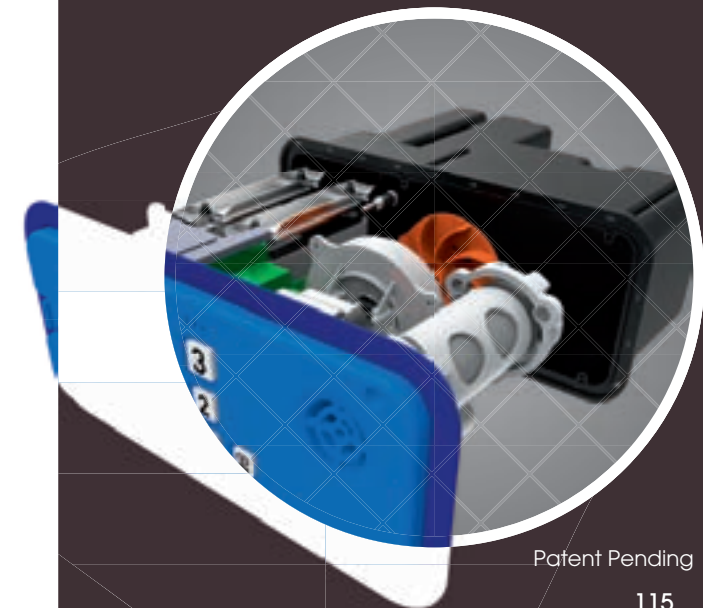

3 COMFORT SETTINGS

— 1 Soft, 2 Medium and 3 Firm —

A dual pump system with a patented computerized PSI sensor allows consumers to automatically inflate the bed to 3 different preset PSI settings.

QUICK & EASY DEFLATION

The auto deflation function will allow the bed to deflate without any user hassle. The deflation pump will automatically shut off once the internal PSI reaches 0.
