TRITECH™ 3-PLY

Durable, yet comfortable

TriTech™ is a 3-ply reinforced material with a polyester mesh core that's encased in two layers of laminated PVC – offering superior strength and durability.

ClearSoft

Water Softening System

Electromagnetic Water Softening

Reduce the adverse effects of “hard” water (commonly causing spa staining and skin irritation) with our in-built ClearSoft™ Water Softening System.

Just activate the ClearSoft system™ using the spa’s control panel and powerful electromagnetic coils surrounding the spa’s water work to condition the water passing through the system.

Plus, it’s not just “low-maintenance”, it’s virtually “NO-maintenance” - with no additional moving parts!

STURDY I-BEAM CONSTRUCTION

Delivering strength
and comfort

Lay-Z-Spa's® I-Beam construction is designed to offer superior structural stability while maintaining a comfortable surface for a luxurious, refreshing spa experience.

The spa retains its shape no matter how many times it's inflated/deflated yet always provides a comfortable, cushioned spa environment.

Lay-Z-Spa®

AirJet™

Float away on a cloud of bubbles
with an AirJet massage!

Soothing to the limbs and relaxing
to the spirit, just press the
Lay-Z-Massage button on the control
panel and the Lay-Z-Spa's® AirJets will
surround you with effervescent
enjoyment.
