

OSPREY

SKATE RANGE 2018

INTRODUCTION

Since 1994, Osprey has existed to create action sports products that promote excitement and adventure. We have never waived from our values of creating quality products that hold appeal to different performance and ability levels, whilst ensuring that the products we create are built to last and fit for purpose in demanding outdoor environments.

As one of Europe's fastest growing skate brands we have continued to grow and develop our collection for 2018 both in the size of the range and depth of quality, so much so that for the first time we have created a dedicated Osprey skate catalogue to stand alone from our surf and water sports range. Our fast growing Osprey skate team rider base, plays a central role in product feedback and development. We continually listen to our rider's

suggestions; tweaking and adapting our products to improve them season after season. You can see more about our team riders at the back of this catalogue.

As you look through the following pages, we hope you find yourself as excited as we are in our 2018 skate offering, look forward to the year with anticipation and continue to grow your business with Osprey Action Sports.

ROLLER SKATES

We are excited to present our new premium roller skates range, featuring mouth-watering designs and an enviable list of specification and features.

Great attention to detail has gone into producing this collection, with detailed market research and competitor analysis having been undertaken during concept phase combined with multiple sampling stages, allowing us to test and tweak the range to perfection whilst hitting competitive price points.

The four models in the range are highly distinctive and with all designs having been produced in house by our creative team. From the 'Spectrum'

which screams 80's roller disco to the 'Raver' which its popular retro skate shoe look, the biggest problem we've found is trying to choose a favourite between them!

And there's plenty of innovation too – with the 'Raver' being the first ever fly knit roller skates; whilst the 'Chevron' and 'Spectrum' feature a unique style of 3D KPU printing.

All of this is underpinned by quality hardware: a high impact chassis with lightweight aluminium trucks, PU cast bushings for easier and smoother turning, high rebound PU 78A - 54 x 32 mm wheels and ABEC7 bearings for a durable, smooth, high speed ride.

SCOOTERS

The Osprey scooter range really does have it all. From small scooters to kids, to large scooters for adults we have a range of scooters suitable for all ages and ability levels. And we have a load of new lines to shout about this year including a new electric scooter, a new BMX scooter, a new colourway dirt scooter and two new large wheeled scooters.

Our new electric scooter is unrivalled at this price point. In fact we're confident that this is one of the best electric scooters in the market even compared with those at much higher price points. With a travel range of up to 12KM and max speed of up to 25KPH, we've had serious fun testing these along some of Devon's seafront promenades.

The new BMX scooter and large wheeled scooters have been added in response to a growing market demand for these lines. Our dirt scooters are perfect for those looking for a serious all terrain scooter, featuring bison sized tyres and a sturdy frame. An awesome new Nato green colour way has been added into the range to build on this year's sales growth in the white and gunmetal grey. On a recent photo shoot we took these dirt scooters up into Haldon forest with some of our craziest team riders and as you can see from the pictures, they absolutely shredded the bike trails!

PLASTICS

From our 22" plastic boards, up to the more sizeable 27" boards, the Osprey Plastic Skateboard range offers a variety of sizes, designs and hardware. These lightweight boards are great for getting around town, in and out of tight spaces, or just cruising down a beach-front Promenade! The range includes a variety of bright, bold and eye catching designs to choose from including retro dip dye boards to cool pastel decks.

All of our boards come full assembled, complete with decks, 3 inch aluminium trucks, chrome ABEC 9 bearings (the highest precision quality) and soft PU wheels making them perfect for kids and beginners.

Our 27" single kick tail board is reminiscent of 70s skating and the days of the Z-boys and Dogtown, bowl riding and street cruising. At 27 inches, this cruiser is a bit longer than many other plastic cruisers in the market, making them easier to skate for slightly older or bigger riders. Our range of 22" skateboards are ideal for younger or smaller riders, feature the same quality hardware and are easy to carry around when the pavement runs out!

PAINT BLUE

SK0031 - 22" x 6" PLASTIC CRUISER - PACK QTY: 4

Serving up a slice of skateboarding history with the modern beauty of soft polyurethane wheels, this retro plastic skateboard is fun, practical and comes in a cool dip dye design. As the first surf-skate experience, the original plastic skateboard was designed to get your surf practice in when the waves were flat, as you can see by the surfboard inspired template.

RETRO RED

TY5185RED - 22.5" x 6" PLASTIC CRUISER - PACK QTY: 4

Everything was brighter, flashier and cooler in the 1970's. It was the decade of rock star excess, bell bottom trousers and socially acceptable face fuzz. It was also the decade that skateboarding swelled in popularity, thanks in part to California's Z-boys. The Osprey 1970's Retro Plastic Skateboard pays homage to the roots of modern skateboarding. The Red semi-translucent, single kick deck allows riders to execute their favourite tricks.

CRUISERS

Our range of cruiser skateboards offer riders the feel of an "old school" set up coupled with our radical new designs. Osprey cruiser decks are made out of robust maple wood, with the majority being constructed from Canadian maple.

All of our Osprey cruisers come complete and ready to roll, put together with quality hardware that has been handpicked for the board. The majority of the range feature ABEC 9 (or 7) bearings, 7" Aluminium trucks and 78A PU Wheels.

Cruisers are great all around boards, and we have designed a range of cruiser deck shapes and sizes some of which are ideal for tricks. Outside of the skate park, if you're looking to do a bit of down-hill cruising, the chrome ABEC 9 precision bearings can handle the speed, whilst the soft 78A wheels make riding tarmac that bit smoother compared to your traditional double kick skateboard whilst providing a tighter turning circle than a longboard and still being compact enough to carry around or fit under the desk at work.

VERT

LONGBOARDS

We are pleased to present our range of longboards for 2018 which balances exceptional design, quality hardware and attractive price points!

Whilst the longboard range features a variety of shapes, the twin tip board shape is our most common as it is popular with beginners, avoids wheel bite and is great for turning / carving. We also have a range of pintail boards with classic timeless shapes which are great for speed and mimicking the feeling of slashing waves on a surfboard every time you carve!

All of our longboards come complete and ready to roll, constructed with quality hardware that has been handpicked for the board. Our board designs have all been created in house by our UK design team and feature everything from surf inspired illustrations to retro wood gradient effects

TY5503 - 39" x 9" LONGBOARD - PACK QTY: 2

Thanks to its generous width, the Osprey Shapes Twin Tip Longboard is a great all-round board for everything from free-styling to cruising, providing plenty of deck space to play around with. This is a versatile directional carver straight out of Jamaica, with a shattered glass Rasta design getting you from A to B in style. The Shape Longboard's concave deck makes this a comfortable pavement pusher whilst the wide truck base give wheels plenty of clearance to avoid any wheel bite when carving.

FLAME SKULL

TY5252 - 39" x 9" LONGBOARD - PACK QTY: 2

With its awesome skull decorations and drop through truck design this Twin Tip Longboard is a slick little cruiser, which can carve corners with amazing grace and speed. Made out of 7ply Canadian maple the deck of the drop through longboard is extremely durable and able to withstand a hefty amount of pressure. The base of the deck has been decorated with a seriously funky flaming skull design. The grip tape on the top of the deck, which keeps feet grounded for greater control of the cruising longboard, is embossed with circular lines that highlight the maple finish.

HOT WHEELS

SK0008 - 39" x 9" LONGBOARD - PACK QTY: 2

The Osprey Hot Wheels Twin Tip Longboard is designed in a striking lime-yellow and black palette featuring an illustration of a skateboard wheel on fire drawn by our very own in house design team in Devon. The Hot Wheels Longboard is a twin tip shape to eliminate wheel bite, allowing you to perform some really deep carves and turns without hindrance. This Twin Tip longboard is constructed with a drop through truck and a concave deck which helps you feel closer to the ground and locked in to the board, making this a great board for beginners!

NEXUS

TY5506 - 38" x 9" LONGBOARD - PACK QTY: 2

The Nexus Twin Tip Longboard is an awesome directional carver with plenty of deck space to fool around on, whether you're free-styling, boardwalking, cross-stepping or just playing around with weight distribution. This board's Twin Tip design is great for having a go at some flat ground tricks as well as eliminating wheel bite on deep carves. The Nexus's concave, flexible deck and drop through trucks make for a controlled carve and super smooth cruising ride. The Nexus's name, as its design suggests, is all about connections linking things together.

FLINT - YELLOW

TY5054A - 39" x 9" LONGBOARD - PACK QTY: 2

Even when the swell isn't looking too swell, surfers can still perfect their carving technique on this Osprey Flint 39in Twin Tip Longboard! The Longboard's 7ply Canadian Maplewood deck has the dual advantage of being flexible and incredibly strong. Because of its flexibility, riders can pump the board at amazing speed! The unique features and high-quality specifications of this Longboard make it perfect for cruising to the shops, through town or along the promenade!

FLINT - BLUE

TY5054B - 39" x 9" LONGBOARD - PACK QTY: 2

The Flint Longboard's Twin Tip design makes ride switching extremely simple, giving the rider far more control of their Longboard. The black grip tape used on the upper deck is embossed with a stylish striped design that exposes the striking wood finish beneath. The black, white and blue striped design incorporates the Osprey logo and has a worn finish giving it a classic vintage appearance. Because the trucks are mounted through the Longboard's deck, the lowered platform improves stability and manoeuvrability at higher carving or cruising speeds.

TIE DYE

SK0011 - 40" x 10" LONGBOARD - PACK QTY: 2

With a retro shape, and pin stripe lines in the grip, the Tie Dye Longboard has the style of an old-school surfboard on wheels. Inspired by the street cruising skating of the 70s, when skateboarding was a way of filling time in between lulls in the swell, as surfers found a way to practice their moves out of the water. The broad front end of the deck, tapering to a stubby pintail, gives the Tie Dye retro longboard stable front foot placing, while maintaining easy manoeuvrability and space to carve without wheel bite. The cool design is finished off with hot red trucks and yellow wheels.

SPECTRUM

TY5504 - 40" x 9.6" LONGBOARD - PACK QTY: 2

The Spectrum Longboard's considered shape makes this a great board for beginners and advanced alike. Its shape means it sweeps toward one 'pin point' at the tail, a classical longboard form that has been around since the start of the game. The sheer length of the Spectrum Pintail helps you feel locked in and stable, making this a great first board for beginners. What really sets this board apart from the rest though is its unique and distinctive design, making it different to a lot of the other longboards out there. If you want to learn the ropes of longboarding and look rad at the same time, this is the board for you.

DOWNHILL

SK0003 - 40.5" x 9.25" LONGBOARD - PACK QTY: 2

The Downhill Twin Tip Longboard features a photographic print of an awesome dream downhill longboarding track on top of a dark shade of strong maple wood with bright aqua wheels. The Osprey Downhill's Twin tip shape gives you deep carving capabilities by eliminating wheel bite completely. The other great feature of this board is its drop through truck which essentially lowers your centre of gravity, closer to the ground so you feel much more secure and stable, even at high speeds. A great longboard for all levels of ability.

HERITAGE

SK0007 - 41" x 9.5" LONGBOARD - PACK QTY: 2

The Heritage Twin Tip features an eye-catching design on a concave, wide and forgiving deck. The wide deck cradles the feet making it super stable whilst the concave deck gives the rider even more control of the board, making it a great board for beginners. This Longboard is specially designed as a Twin Tip which eliminates wheel bite. This means that you can make some really deep curves without the wheels grinding on the deck. With unique translucent orange wheels and high quality ABEC 9 bearings, this is a great all-round longboard perfect for all abilities.

RAINBOW

TY5507 - 41.25" x 9.5" LONGBOARD - PACK QTY: 2

This Longboard is built specifically for speed lovers, yes, we're talking about the downhillers! This board was designed as a traditional top-mount, the technique which provides the most traction and grip on speedy downhill, as well as providing more sensitivity to the road conditions. Its large, soft wheels give a really smooth ride under foot and the concave, drop down deck helps you feel locked in, helping you keep any 'speed wobbles' you may have at bay. The twin tip design eliminates wheel bite which would be very dangerous on downhill rides considering the possible speed that can be reached.

CUBE

TY5255 - 41.25" x 9.5" LONGBOARD - PACK QTY: 2

For a longboard that looks sharper than a Samurai blade but rides smoother than velvet, look no further than the Cube Longboard. This little beauty's drop down design enables superb curves to be performed at amazing speeds! Thanks to its 9ply Canadian maple deck the Twin Tip Boat is among the most durable cruising longboards in the Osprey collection. This makes it a great cruise longboard for beginners as they're far more likely to give their board a good battering. The base of the deck is decorated with a series of squares, cut diagonally into two and decorated with surf-seasoned prints and unique Osprey graphics.

COASTLINE

SK0002 - 46" x 9" LONGBOARD - PACK QTY: 2

This pintail shape is renowned for being extra responsive, extra stable and provides the most balance out of all of the various longboard shapes, making the Osprey Coastline Longboard Skateboard a perfect first longboard. The Coastline 46" Longboard deck has a mild concave to give you more control and to stiffen the flex of the board for added durability. The skateboard's generous width makes getting to grips with foot positioning that bit easier for beginners, whilst its pintail shape makes carving particularly easy! The pintail longboard features a stunning coastline photoprint with a bold tribal pattern.

ACCESSORIES

We offer a selection of skateboard parts and accessories including wheels, trucks, grip tape and bearings to make sure that your board is set up exactly the way you like and keeps on performing the way you want it to!

Osprey helmets and pads range include essential items to protect vulnerable limbs from the inevitable knocks and scrapes that skateboarders and scooter riders suffer.

We have produced a range of skate helmets and pads that will not only stand up to the rough and tumble of your bails but will look good and remain comfortable as well.

Osprey helmets conform to EN1078 1997 standards and come in a range of colours, featuring a tough outer shell and impact absorption lining to help keep your cranium protected.

Our elbow and knee pads feature adjustable straps for added comfort and are great for minimising abrasions from concrete surfaces, whilst wrist guards will help minimise the risk of bad breaks with their reinforced plastic splints.

Our skate parts range includes trucks, risers, wheels, bushings and bearing sets, to help ensure both trucks and wheels remain performing at their best.

The wheel bearings are also compatible with stunt scooter and our range of roller skates for faster spinning wheels. The rubber seals are great at reducing the amount of outside contaminants from entering the interior of the chrome bearings; they also offer a solid defence against the lubricating fluid inside the bearings leaking.

5" TRUCKS SET

TY5383 - POWDER COATED TRUCKS - PACK QTY: 6/24

Sin Powder Coated Trucks are ideal for upgrading your trucks to a durable and stylish set up. The power coating not only gives the trucks a stylish glossy finish but also helps protect the aluminium from the elements. Ideal for use with double kick and cruiser decks.

4mm RISER PAD SET

TY5381 - PACK QTY: 6/24

Our 4mm Riser Pads are made to reduce wheel bite which can be a painful experience for most riders. The set includes 2 skate risers that can be fitted to the base of the truck using the trucks own bolts forming an additional layer between the deck and the base of the truck causing the deck to be elevated and help avoid it coming into contact with the wheels. The 4mm Skateboard Risers can also help avoid stress fractures to the deck where the truck base joins, helping to prolong the decks lifespan.

8-14mm RISER PAD SET

TY5382 - PACK QTY: 6/24

The 8-14mm Riser Pads are made to reduce wheel bite. They are also constructed in a wedge shape to increase the amount of turn that the trucks produce (when placed thick end facing inwards) exaggerating the positioning of the kingpin and the pivot point. The set includes 2 skate risers that can be fitted to the base of the truck using the trucks own bolts forming an additional layer between the deck and the base of the truck causing the deck to be elevated and help avoid it coming into contact with the wheels. The Risers can also help avoid stress fractures to the deck where the truck base joins, helping to prolong the decks lifespan.

TEAM RIDERS

We now support an array of established and up-and-coming skate talent, both internationally and in the UK, from long boarders to skateboarders (and a few surfers who like to skate for fun as well!).

Our fast growing Osprey skate team rider base, plays a central role in product feedback and development. Our team riders use, test and assess all Osprey hardware & accessories.

We continually listen to our rider's suggestions; tweaking and adapting our products to improve them season after season and their feedback is integral to our business.

The team riders are also influential on social media and in their respective locations and specialisms, and they work with us to promote the Osprey brand and products within their areas and the wider industry, as well as provide us with great content.
