

Bestway
in partnership with
WILTON BRADLEY LTD

WELCOME

Bestway's Lay-Z-Spa® is the world's first premium inflatable spa. Almost a decade of advanced engineering innovations have built total market dominance and a name consumers have grown to trust. The Lay-Z-Spa® offers an affordable spa experience that's convenient to use, easy to set up and offers total relaxation.

Another reason consumers love Lay-Z-Spa® is because it's backed by Bestway's comprehensive customer support services. These include online support, video tutorials detailing step-by-step how to set up and maintain your spa, plus localised call centers to answer any questions. For this reason, customers enjoy peace of mind and can spend more time relaxing in their Lay-Z-Spa®.

Your customers deserve the best portable spa – they deserve Lay-Z-Spa® by Bestway.

WELCOME

Bestway's Lay-Z-Spa®
is the world's first premium
inflatable spa.

More than a decade of advanced engineering innovations have built total market dominance and a name consumers have grown to trust. The Lay-Z-Spa offers an affordable spa experience that's convenient to use, easy to set up and offers total relaxation. Another reason consumers love Lay-Z-Spa is because it's backed by Bestway's comprehensive customer support services. These include online support, video tutorials detailing step-by-step set up and maintenance for your spa, plus localised call centers to answer any questions. For this reason, customers can enjoy peace of mind and spend more time relaxing in their Lay-Z-Spa. Your customers deserve the best portable spa – they deserve Lay-Z-Spa by Bestway.

TECHNICAL IMPROVEMENTS

As the world's first premium inflatable hot tub, Lay-Z-Spa is renowned for its unrivalled quality and trusted by over 500,000 happy customers across the UK. At the forefront of hot tub innovation, Lay-Z-Spa works hard to provide the latest safety measures and features that deliver a hot tub experience like no other.

GROUND FAULT DETECTION SYSTEM

Unique to Lay-Z-Spa, the new Ground Fault Detection System (GDS) continually monitors for a secure earth connection in your power supply. Offering market leading IEC Class 1 appliance protection so you can enter your hot tub with total peace of mind.

IMPROVED PORTABLE RESIDUAL-CURRENT DEVICE

In addition to the new Ground Fault Detection System, the Portable Residual-Current Device (PRCD) has been upgraded with a new fail-safe magnetic system. Coupled with the new GDS, the ultra-sensitive PRCD electrical safety device delivers double-layered protection for an ultra-safe hot tub experience.

INTEGRATED CHEMCONNECT™ DISPENSER

Keeping your Lay-Z-Spa's water pristine is easy with the integrated ChemConnect™ dispenser. Fully adjustable to determine chemical release, simply add multifunction chlorine tablets for easy, no fuss hot tub chemical care.

DROP STITCH MATERIAL

Strength and Durability

Inflated walls made from drop stitch material, provide unparalleled strength and durability. These threads securely connect the material surfaces internally, while carefully applied sidewalls seal the finished inflated cavity. This creates a panel that effectively supports considerable weight while itself being light and easily portable when deflated.

TRITECH™ 3-PLY

Durable, yet comfortable

Tri tech™ is a 3-ply reinforced material with a polyester mesh core that's encased in two layers of laminated PVC – offering superior strength and durability to the build of our Spas.

Y-BEAM CONSTRUCTION

Delivering strength and comfort

Lay-Z-Spa's Y-Beam construction is designed to offer superior structural stability while maintaining a comfortable surface for a luxurious, refreshing spa experience. The spa retains its shape no matter how many times it's inflated and deflated, always providing a comfortable, cushioned spa environment.

FREEZE SHIELD™ TECHNOLOGY

Technology and style

Lay-Z-Spas with Freeze Shield™ are equipped for year-round, all-weather use. Designed with innovative winterising technology. These spas have built-in sensors so water temperature never falls below 6°C. Freeze Shield™ automatically increases water circulation when temperatures are low to prevent inner parts from becoming damaged.

Lay-Z-Spa® AirJet™

Float away on a cloud of bubbles with an AirJet™ massage!

Soothing to the limbs and relaxing to the spirit, just press the Massage button on the control panel and the Lay-Z-Spa's® AirJet™s will surround you with effervescent enjoyment.

SETUP AND MAINTENANCE

We make it quick and easy to start relaxing and maintaining your spa!

With the necessary set-up tools already included, all you need is the space to place your spa and it's a simple process of 1, 2, and 3 to get going.

1. Inflate the Lay-Z-Spa with the double-functioning spa pump.
2. Connect the pump to the Lay-Z-Spa with the correct openings and make sure they are all attached correctly.
3. Fill up the Lay-Z-Spa with water to the indicated level and you are now ready to enjoy your spa!

In addition to all the tools and the pool cover that comes with every spa, we've also included a chemical floater and filter cartridge. These are used to keep the water healthy and clean, which is important not only for yourself but for the longevity of the spa!

The new deflation function, thanks to simple fittings shown in the left picture, can deflate the spa in an easy and convenient way. Function available on all the Lay-Z-Spas.
