Surf

It started in 1994. We wanted to create a brand that's accessible to all thrill seekers. From total beginners to seasoned risk-takers, our collection of affordable and rugged products span from land to sea.

Developing into one of the most recognised action sports brands in the UK & Europe, we progress and improve our collections each year. We stay true to ourselves, we understand that our products need to see you through the good and the bad, the successes and the scrapes as you master your new sport.

Striking the balance between affordability and performance, don't hold back and instead allow our gear to bear the brunt of your next wipe out or triumph. We're here for every step of your journey.

We have continued to grow and develop our impressive collection of surf equipment, following this ethos of balancing performance and affordability. Including wetsuits, bodyboards, foam surfboards and accessories; we welcome you to explore our latest collection.

Wetsuits

Here at Osprey we believe in having a choice, and that's why we have continued to develop and grow our wetsuit ranges. Whether you're after a flexible and lightweight summer wetsuit or a snug and comfy winter wetsuit, we've got you covered. While the classic Origin Wetsuit range continues to remain popular, the Zero Wetsuit range has seen the introduction of some brand new colour options.

Thanks to our in-depth knowledge, experience and renowned product performance, we continue to produce and supply more wetsuits to the UK surf market than any other brand each year.

Rashvests

Traditionally designed to help protect against irritation from the inside seams of a wetsuit, rashvests have now become an integral beach accessory thanks to the sun protection they provide.

Our collection of rashvests are suitable for both adults and kids, providing UPF 50+ protection across the entire range to help minimise the effects of a

long day in and out of the water, under the sun.

Available in a range of unique Osprey designs, additional features include flatlock seams, quick dry technology and soft touch fabric.

Surfboards

Osprey Foam Surfboards are perfect for those just starting out in the world of wave riding. The soft top XPE deck featured throughout our range is constructed to be more forgiving for beginner surfers.

Wooden stringers and a durable yet lightweight EPS core, provide plenty of strength and buoyancy, making it easier to catch and stay on waves, while the

triple fin configuration helps you stay in control.

As our collection of boards increase in popularity year-on-year, this year sees the introduction of a brand new design and refinement of the existing product range.

Skate

It started in 1994. We wanted to create a brand that's accessible to all thrill seekers. From total beginners to seasoned risk-takers, our collection of affordable and rugged products span from land to sea.

Developing into one of the most recognised action sports brands in the UK & Europe, we progress and improve our collections each year. We stay true to ourselves, we understand that our products need to see you through the good and the bad, the successes and the scrapes as you master your new sport.

Striking the balance between affordability and performance, don't hold back and instead allow our gear to bear the brunt of your next wipe out or triumph. We're here for every step of your journey.

We welcome you to explore our skate collection, which follows this same ethos. From longboards to double-kicks and our exclusive partnership with Volkswagen, we have a diverse range of skateboards to choose from.

Scooters

Where will you ride? Here at Osprey we believe you should be able to take a scooter anywhere. BMX, Big Wheel, Stunt and Dirt – choose the right scooter for your next ride.

Suitable for beginners and advanced riders, our scooters are perfect for long commutes, sessions at the skate park and intense trial rides. Featuring a

variety of high-spec options at an affordable price, Osprey Scooters are suitable for both kids and adults.

Gunmetal grey, copper, pink and more, our scooters come in a wide variety of colours chosen in relation to market trends and preferences.
