Introducing TravelTech™ - a new type of stand-up paddleboard that revolutionizes the portability of inflatable boards. Portability, convenient storage and easy transport have always been major advantages of inflatable boards over hard-sided boards, but with TravelTech, it's even easier. The structure of the board was engineered to be folded vertically and horizontally, giving a more compact shape. The backpack that comes with TravelTech boards is 40% smaller than the standard ones, allowing for easier handling and transport.
